Abby’s Flying Fairy School Playset

Attention, Fairy Friends!

Create your own adventure in Abby’s classroom with this printable playset.

Instructions for Parents:

1. Print out the playset pages on paper or card stock and carefully cut out the characters along the grey lines.

2. Fold each character along the dotted lines to form a base.

3. Use a glue stick or tape to attach the front of the character to the back side.

4. Carefully cut out the scenery and the two support sections.

5. Fold the support sections along the dotted lines. Glue these to the back side of the scenery. The support sections should be attached to the far right and left sides of the scenery. Glue the supports about 1/2 inch above the bottom of the scenery.

Play Together Tips:

* Together with your child, act out his favorite Abby’s Flying Fairy School episodes! Ask, “Can you think of another way to solve the problem in the story?”

* Encourage your child to explore Abby’s classroom. Ask your child, “How is Abby’s classroom similar to or different from your own?”

* Abby loves to rhyme and count! Invite your child to count the number of blocks in Abby’s classroom. Ask, “How many blocks are there altogether?” Ask, “What words rhyme with block?”

* Invite your child to make up her own magical adventure with the fairy friends! What happens in the beginning, middle and end of her story?
