Detective Elmo is searching for a cube who has been causing trouble. Color in all the cubes below. Then look for the cube with the number 6 on it. That’s the one Elmo wants to find. Circle it! Here’s a hint: A cube is a box with 6 square sides.

Parent Tip:
You and your child can become cube detectives, too! Search for things around your home that have 6 square sides, such as tissue boxes, blocks, or ice cubes.
