President Elmo is trying to bring order to the White House. Help him identify the members of his Sheepriet Service. Color in Agent 1 blue. Color in Agent 2 red. Color in Agent 3 yellow. Here’s a hint: The number of each sheep tells you which agent it is!

Parent Tip:
After your child has completed the activity, cut out the agents and use them to play an ordering game. Ask your child to put the agent in order - 1, 2, 3. Play again and switch it up. This time, the red agent should come first, the yellow agent second, and the blue agent third.
